

Rescom® Modular™ 3 Man Rope Kit - RK3MR-091

This Rescom® Modular™ Kit is designed for a three member team including an Entrant, a Supervisor and an Attendant for entries to a maximum distance of 3 miles.

3 AA batteries, which are housed in the DMI, worn by the Supervisor, supply up to 200 hours of power for the entire system. All team members connect to the Junction Box made of sturdy, yet lightweight, PVC for communication.

A number of headset options are available and most can be used with SCBAs, environmental suits, hard hats and military/ballistic helmets.

This kit contains two 300' static kermantle polyester Safety/Communication Rope. The rope provides instantaneous, clear, and continuous communication and fall protection all in one line. It meets all NFPA standards for

life safety rope and can be submersed in water with its connectors for any length of time down to 35'. The rope is available in five different colours.

The kit also includes 50' of communication cable with an end to end (connector to connector) tensile strength of 100 lbs. The SEDFLEX™ cable jacketing is resistant to chemicals such as gasoline, motor oil, methanol, ethanol, and salt solutions. It has excellent flexibility even in extreme temperatures of -40°F (-40°C) to 176°F (80°C).

The kit meets all requirements of CSA per C22.2 No. 157-92 in Canada, and U.L. per #913 in USA. Class 1, Div. 1 Groups A, B, C, D. Class II, Div. 1, Groups E, F, G, Class III, Div. 1, Gaseous Mines. All connectors and boxes are watertight and intrinsically safe.

Kit Contents	Qty	Description
